

**Principles of Working in the
Private Security Industry
SAMPLE EXAMINATION PAPER**

Instructions to the candidate - to be read before the examination

Principles of working in the Private Security Industry

1. You should have the following for this examination:
 - This examination paper
 - An answer sheet
 - An HB pencil and eraser
2. This question paper contains a mixture of 70 Multiple Choice Questions. To pass you must correctly answer 49 out of 70 questions.
3. You have 105 minutes to complete the paper. Do not turn to page 2 of this paper until instructed to do so by the invigilator.
4. You may not refer to any book or material whilst taking this examination. You may however use a calculator if required.
5. You must use an HB pencil to complete all parts of the answer sheet.
6. You must select only one answer out of the four choices (lettered A, B, C and D) offered. Only one answer is correct. Mark questions 1-70 only.
7. When answering each question please ensure that you mark your answer with an HB pencil on the answer sheet. If, for example, you decide that for Question 1 the correct answer is 'B', mark your answer sheet like this:

	A	B	C	D
1	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
8. If you want to change your answer, rub out your first choice with an eraser and then mark boldly the answer you have now decided is correct.
9. If you find a question difficult, leave it and return to it later.
10. This paper is the property of BIIAB Qualifications Limited and must be handed back on completion of the examination. Under no circumstances may this paper be copied.

Paper No:xxxxx

- Q1.** What is the primary responsibility of a security guard in the private security industry?
- A. To arrest criminals
 - B. To prevent crime
 - C. To investigate incidents
 - D. To carry out search and seizure operations
- Q2.** Which of the following security services is NOT commonly provided by private security companies?
- A. Access control
 - B. Event security
 - C. Criminal investigations
 - D. Security consulting
- Q3.** What is the key difference between private security and public law enforcement?
- A. Private security is responsible for enforcing the law
 - B. Public law enforcement is accountable to private organizations
 - C. Public law enforcement is funded by taxpayers
 - D. Private security has greater legal authority than public law enforcement

- A. They help security personnel enforce the law
 - B. They are essential for effective teamwork
 - C. They enable security personnel to use force when necessary
 - D. They help security personnel avoid violent confrontations
- Q5.** What is the primary objective of a security risk assessment?
- A. To identify potential threats and vulnerabilities
 - B. To prevent all security incidents from occurring
 - C. To apprehend criminals
 - D. To enforce security policies and procedures
- Q6.** Which of the following is a physical security control?
- A. Firewalls
 - B. Encryption
 - C. Access control systems
 - D. Intrusion detection systems
- Q7.** What is the purpose of a security policy?
- A. To protect the privacy of employees
 - B. To establish rules and guidelines for protecting assets
 - C. To provide access to sensitive information
 - D. To facilitate criminal investigations
- Q8.** Which of the following is NOT a type of security incident that private security personnel may encounter?
- A. Workplace accidents
 - B. Property damage
 - C. Cyberattacks
 - D. Theft
- Q9.** What is the primary goal of a security audit?
- A. To identify security vulnerabilities and risks
 - B. To prevent unauthorized access to information
 - C. To investigate security incidents
 - D. To establish security policies and procedures

Q10. Which of the following is a type of access control system?

- A. Passwords
- B. Encryption
- C. Firewalls
- D. Intrusion detection systems

Q11. Which of the following is NOT a physical security measure?

- A. CCTV cameras
- B. Access control systems
- C. Encryption
- D. Security guards

Q12. What is the purpose of a security incident report?

- A. To identify potential security risks and vulnerabilities
- B. To provide information for criminal investigations
- C. To establish security policies and procedures
- D. To prevent future security incidents from occurring

Q13. What is the role of private security personnel in emergency situations?

- A. To evacuate the building
- B. To coordinate with emergency responders
- C. To provide medical assistance
- D. All of the above

Q14. Which of the following is an example of a security vulnerability?

- A) A user using a weak password
- B) A computer running on an outdated operating system
- C) An unauthorized person accessing a secure facility
- D) A website experiencing high traffic and becoming temporarily slow

Q15. What is the purpose of a security camera system?

- A. To deter crime
- B. To monitor employee productivity
- C. To identify individuals who violate company policies
- D. All of the above

Q16. Which of the following is NOT a recommended security measure for protecting confidential information?

- A. Password-protected files
- B. Locked filing cabinets
- C. Unsecured Wi-Fi networks
- D. Encrypted emails

Q17. What is the role of security personnel in enforcing company policies?

- A. To monitor employee behavior
- B. To discipline employees who violate policies
- C. To report policy violations to management
- D. All of the above

- Q18.** What is the difference between a security guard and a security officer?
- A. Security officers have more training than security guards
 - B. Security officers have greater legal authority than security guards
 - C. There is no difference between the two
 - D. Security guards work in public spaces, while security officers work in private spaces
- Q19.** What is the purpose of a security screening process?
- A. To prevent unauthorized access to a facility
 - B. To identify potential security risks and threats
 - C. To establish security policies and procedures
 - D. To investigate security incidents
- Q20.** Which of the following is NOT a recommended security measure for protecting sensitive data?
- A. Regular backups of data
 - B. Password-protected files
 - C. Unsecured Wi-Fi networks
 - D. Encryption of data
- Q21.** What is the role of a security consultant?
- A. To provide security services to clients
 - B. To design and implement security systems and policies
 - C. To investigate security incidents
 - D. To enforce security policies and procedures
- Q22.** What is the purpose of a security plan?
- A. To identify security vulnerabilities and risks
 - B. To establish rules and guidelines for protecting assets
 - C. To provide access to sensitive information
 - D. To facilitate criminal investigations
- Q23.** Which of the following is a recommended security measure for protecting a facility?
- A. Access control systems
 - B. Encrypted emails
 - C. Intrusion detection systems
 - D. Firewalls
- Q24.** What is the role of private security personnel in preventing workplace violence?
- A. To identify potential threats and take action to prevent them
 - B. To discipline employees who engage in violent behavior
 - C. To coordinate with law enforcement to investigate incidents
 - D. All of the above
- Q25.** What is the purpose of a security training program?
- A. To educate employees on security policies and procedures
 - B. To provide physical fitness training for security personnel
 - C. To teach employees how to use firearms
 - D. To prevent unauthorized access to information
- Q26.** Which of the following is a recommended security measure for protecting against cyberattacks?
- A. Regular backups of data
 - B. Password-protected files
 - C. Unsecured Wi-Fi networks
 - D. All of the above

- Q27.** What is the role of a security manager?
- A. To oversee the daily operations of a security team
 - B. To provide security services to clients
 - C. To investigate security incidents
 - D. To enforce security policies and procedures
- Q28.** Which of the following is a recommended security measure for protecting against workplace violence?
- A. Providing conflict resolution training to employees
 - B. Allowing employees to bring firearms to work
 - C. Ignoring warning signs of potential violent behavior
 - D. None of the above
- Q29.** What is the purpose of a security patrol?
- A. To monitor a facility for security breaches
 - B. To investigate security incidents
 - C. To enforce security policies and procedures
 - D. All of the above
- Q30.** What is the role of private security personnel in responding to security incidents?
- A. To apprehend suspects and detain them until law enforcement arrives
 - B. To provide first aid to injured parties
 - C. To preserve the scene of the incident for forensic analysis
 - D. All of the above
- Q31.** What is the difference between active and passive security measures?
- A. Active security measures involve physical security devices, while passive security measures involve policies and procedures
 - B. Passive security measures involve physical security devices, while active security measures involve policies and procedures
 - C. Active security measures are less effective than passive security measures
 - D. There is no difference between the two
- Q32.** What is the purpose of a risk assessment?
- A. To identify potential security threats and vulnerabilities
 - B. To establish security policies and procedures
 - C. To investigate security incidents
 - D. To provide security services to clients
- Q33.** Which of the following is a recommended security measure for protecting a facility from unauthorized access?
- A. Access control systems
 - B. Encrypted emails
 - C. Intrusion detection systems
 - D. Firewalls
- Q34.** What is the role of private security personnel in responding to medical emergencies?
- A. To provide first aid to injured parties
 - B. To transport injured parties to the hospital
 - C. To administer prescription medication to injured parties
 - D. None of the above

- Q35.** What is the role of private security personnel in enforcing the law?
- A. To apprehend suspects and detain them until law enforcement arrives
 - B. To investigate criminal activity
 - C. To issue fines and penalties to violators
 - D. None of the above
- Q36.** Which of the following is a recommended security measure for protecting against theft?
- A. Installing security cameras
 - B. Providing security training to employees
 - C. Securing windows and doors
 - D. All of the above
- Q37.** What is the purpose of a security audit?
- A. To evaluate the effectiveness of a security program
 - B. To investigate security incidents
 - C. To establish security policies and procedures
 - D. To provide security services to clients
- Q38.** Which of the following is a recommended security measure for protecting against workplace violence?
- A. Providing conflict resolution training to employees
 - B. Allowing employees to bring firearms to work
 - C. Ignoring warning signs of potential violent behavior
 - D. None of the above
- Q39.** What is the role of private security personnel in protecting a facility from fire?
- A. To monitor the facility for fire hazards
 - B. To provide fire suppression services
 - C. To coordinate with the fire department
 - D. All of the above
- Q40.** What is the purpose of a security policy?
- A. To establish rules and guidelines for protecting assets
 - B. To provide access to sensitive information
 - C. To facilitate criminal investigations
 - D. None of the above
- Q41.** Which of the following is a recommended security measure for protecting against cyberattacks?
- A. Regular backups of data
 - B. Password-protected files
 - C. Unsecured Wi-Fi networks
 - D. All of the above
- Q42.** What is the role of private security personnel in protecting against terrorism?
- A. To monitor for suspicious behavior and packages
 - B. To enforce immigration policies
 - C. To investigate potential terrorist threats
 - D. None of the above
- Q43.** What is the purpose of a security incident report?
- A. To document security incidents for future reference
 - B. To notify law enforcement of security incidents
 - C. To provide evidence in criminal trials
 - D. To evaluate the effectiveness of a security program

- Q44.** Which of the following is a recommended security measure for protecting against fraud?
- A. Requiring background checks for all employees
 - B. Providing fraud awareness training to employees
 - C. Allowing employees to work remotely
 - D. None of the above
- Q45.** What is the role of private security personnel in protecting against workplace accidents?
- A. To investigate accidents after they occur
 - B. To prevent accidents from occurring in the first place
 - C. To provide medical treatment to injured parties
 - D. None of the above
- Q46.** Which of the following is a recommended security measure for protecting against identity theft?
- A. Shredding documents containing sensitive information
 - B. Allowing employees to use personal devices for work purposes
 - C. Providing employees with social security numbers of clients
 - D. None of the above
- Q47.** What is the purpose of security training?
- A. To ensure that employees are properly trained to provide security services
 - B. To meet legal requirements for security personnel
 - C. To provide employees with general knowledge about security
 - D. All of the above
- Q48.** Which of the following is a recommended security measure for protecting against burglary?
- A. Installing alarm systems
 - B. Allowing employees to use personal devices for work purposes
 - C. Providing employees with sensitive client information
 - D. None of the above
- Q49.** What is the role of private security personnel in protecting against workplace harassment?
- A. To engage in harassing behavior
 - B. To investigate harassment claims
 - C. To ignore harassment complaints
 - D. None of the above
- Q50.** What is the purpose of a security risk assessment?
- A. To identify potential security threats and vulnerabilities
 - B. To investigate security incidents
 - C. To establish security policies and procedures
 - D. To provide security services to clients
- Q51.** Which of the following is a recommended security measure for protecting against vandalism?
- A. Installing surveillance cameras
 - B. Allowing employees to vandalize the facility
 - C. Providing employees with the combination to the safe
 - D. None of the above

- Q52.**What is the role of private security personnel in protecting against natural disasters?
- A. To provide medical treatment to injured parties
 - B. To coordinate with emergency responders
 - C. To investigate the cause of the natural disaster
 - D. None of the above
- Q53.**Which of the following is a recommended security measure for protecting against industrial espionage?
- A. Providing sensitive information to competitors
 - B. Restricting access to sensitive information
 - C. Encouraging employees to engage in unethical behavior
 - D. None of the above
- Q54.**What is the purpose of a security survey?
- A. To identify potential security threats and vulnerabilities
 - B. To investigate security incidents
 - C. To establish security policies and procedures
 - D. To provide security services to clients
- Q55.**Which of the following is a recommended security measure for protecting against physical attacks?
- A. Allowing employees to carry firearms
 - B. Providing self-defense training to employees
 - C. Encouraging employees to engage in physical altercations
 - D. None of the above
- Q56.**What is the role of private security personnel in protecting against product tampering?
- A. To ignore reports of product tampering
 - B. To investigate reports of product tampering
 - C. To tamper with the products themselves
 - D. None of the above
- Q57.**What is the purpose of a security contingency plan?
- A. What is the purpose of a security contingency plan?
 - B. To provide employees with general knowledge about security
 - C. To establish security policies and procedures
 - D. To identify potential security threats and vulnerabilities
 - E. To provide a framework for responding to security incidents
- Q58.**Which of the following is a recommended security measure for protecting against cyber-attacks?
- A. Providing employees with weak passwords
 - B. Restricting access to sensitive information
 - C. Encouraging employees to click on suspicious links
 - D. None of the above
- Q59.**What is the role of private security personnel in protecting against terrorism?
- A. To engage in terrorist activity
 - B. To investigate terrorism incidents
 - C. To prevent terrorism from occurring in the first place
 - D. None of the above

- Q60.** Which of the following is a recommended security measure for protecting against workplace violence?
- A. Encouraging employees to engage in violent behavior
 - B. Providing self-defense training to employees
 - C. Ignoring reports of threatening behavior
 - D. None of the above
- Q61.** What is the purpose of a security audit?
- A. To investigate security incidents
 - B. To provide employees with general knowledge about security
 - C. To identify potential security threats and vulnerabilities
 - D. To evaluate the effectiveness of a security program
- Q62.** Which of the following is a recommended security measure for protecting against data breaches?
- A. Providing employees with sensitive customer information
 - B. Restricting access to sensitive information
 - C. Encouraging employees to share sensitive information
 - D. None of the above
- Q63.** What is the role of private security personnel in protecting against internal theft?
- A. To engage in theft themselves
 - B. To ignore reports of theft
 - C. To investigate reports of theft
 - D. None of the above
- Q64.** What is the purpose of security access control?
- A. To provide employees with general knowledge about security
 - B. To establish security policies and procedures
 - C. To identify potential security threats and vulnerabilities
 - D. To control access to sensitive areas
- Q65.** What is the role of private security personnel in protecting against workplace discrimination?
- A. To engage in discriminatory behavior
 - B. To ignore reports of discrimination
 - C. To investigate reports of discrimination
 - D. None of the above
- Q66.** Which of the following is a recommended security measure for protecting against social engineering attacks?
- A. Providing employees with sensitive information
 - B. Restricting access to sensitive information
 - C. Encouraging employees to click on suspicious links
 - D. None of the above
- Q67.** What is the purpose of a security policy?
- A. To establish security policies and procedures
 - B. To provide employees with general knowledge about security
 - C. To identify potential security threats and vulnerabilities
 - D. To investigate security incidents

Q68. Which of the following is a recommended security measure for protecting against unauthorized access to computer systems?

- A. Providing employees with weak passwords
- B. Restricting access to sensitive information
- C. Encouraging employees to share passwords
- D. None of the above.

Q69. Which of the following is NOT a principle of working in the private security industry?

- A) Honesty and integrity
- B) Confidentiality and discretion
- C) Use of excessive force
- D) Professionalism and ethical conduct

Q70 . Which of the following is a primary responsibility of a private security professional?

- A) Conducting criminal investigations
- B) Providing medical care to injured individuals
- C) Maintaining public order and safety
